To whom it my concern:

The residents of Upper Alpha Branch in Martin Co. have a desperate situation. Ten households 22 people are experiencing insufficient water pressure or no water pressure at all. The water supply line is 2 inches for the first four houses and reduces to a 3/4 inch line for the remaining homes. The Martin County Water District have stated they are waiting approval from the Public Service Commission to upgrade the existing service for Upper Alpha Branch. While waiting lack of water has definitely created a hardship for the families involved. We the petitioners ask you to expedite the necessary steps to reconcile this water problem.
